

```

class O { public:
    class I { public:
        int A;
    } objI;
} objO;

```

C++

```

let O={ [I]
    let I={ [I]
        let [E] A
    }
}

```

Dynamisches Wissen

```

class O { public:
    class I { public:
        static int A;
    } objI;
} objO;

```

C++

```

let O={ [I]
    let I={ [I]
        let [E,S] A
    }
}

```
